

"BRING YOUR WEEDS!"

Do you think you might have an invasive species in your lake or yard? Bring a bagged sample to Scott Pearson, biologist at the Watersmeet & Iron River Ranger Station, US 2 and US 45, Watersmeet, MI. The phone number is 906-358-4551. Please mark the bag with your name, contact information, collection date and location of where the sample was found and he will help you identify your specimen. The website www.lakeguards.org may also help you identify local invasives.
